Tevin S. Campbell in O Junior Software Engineer

tevinc.dev@gmail.com • 646-734-1829 • TevTheDev.com

Technical Skills

Programming Languages: Java, C#, JavaScript, Python, HTML, CSS, C++
Frameworks & Libraries: React, Spring Boot
Databases: MySQL, PostgreSQL, MongoDB, NoSQL
Cloud Services & DevOps: AWS (EC2, S3, Lambda, Elastic Beanstalk), Git
Testing & Automation Tools: JUnit, Selenium

Education

Georgia Institute of Technology	MS in Computer Science	May 2027
Western Governors University	BS in Computer Science	Jun. 2024

Software Projects

PokeVault ⧉

• Built PokéVault, a full-stack Pokémon web application enabling users to explore, search, and save their favorite Pokémon with data fetched from the PokéAPI.

• Developed server-side functionality using **Java**, **Spring Boot**, and **Hibernate**, implementing **user authentication** and secure **database management** with **MySQL**.

• Designed a responsive user interface with **HTML**, **CSS**, **Thymeleaf**, and **Bootstrap**, ensuring a seamless user experience across devices.

• Deployed the application on **AWS Elastic Beanstalk**, demonstrating expertise in cloud deployment and scalable infrastructure.

GoalGuru ⧉

• Developed a predictive analytics system with **Python** and **Scikit-learn**, integrating random forest algorithms and utilizing data normalization and feature selection to forecast soccer match outcomes with a **60%** accuracy rate.

• Developed a user interface utilizing **Ipywidgets**, enabling users to enter match variables and generate predictions.

• Visualized match outcome data through **Matplotlib,** crafting bar graphs, histograms, and pie charts that elucidated score distribution and prediction accuracy.

• Utilized **Git** for version control to manage, track, and document changes to the code and enable a better and smoother collaboration.

Work Experience

J.P. Morgan & Chase   Brooklyn, NY
Associate Banker   Aug. 2022 - Present

• Resolved banking issues efficiently, enhanced customer satisfaction with a score of **92%**, and fostered strong relationships to contribute to client retention. Trained new associates in banking software and customer service protocols.

Aquarius Real Estate   Springfield, MA
Real Estate Investor   May 2015 - Present

• Conducted market research and analysis to pinpoint undervalued properties, subsequently acquiring and renovating these assets, integrating **ROI** analysis, thus attaining an average profit margin of **20%** per resale.

• Develop **budgets** and **timelines** for renovation projects, ensuring timely completion within budget.

Certifications

Certified Cloud Practitioner Apr. 2023   **ITIL Foundations** Sep. 2023   **Linux Essentials Certification** Dec. 2023
